

The double-flap cord jacket. The cool sunnies. The Vespa. Who's this bloke kidding? Least the jacket's a winner.

Can't Beat a Classic

Pretty well a standard issue item, the old denim jacket. But there's nothing old about ours. Well, it's got antique brass buttons, but they look fresh and snazzy. The double pockets are a required feature and you get a bit of cord lining up near your neck for good measure. And if, by any chance, you're not into the denim there's no doubt you're a cord man. The cord jacket's the same deal as the denim number, but you get a bit of denim up around your neck. Just to confuse you.
